## HIGH SCHOOL BOY ARRESTED ON CHARGE OF INCITING LAWRENCE STRIKERS TO RIOT

### CARDINAL IS HOME

#### A BRIEF HEARING

In Matter of Taking Offi-  
cials' Depositions

NEW YORK, Jan. 31.—Because it conflicted with a directors' meeting there was only a brief hearing today in the matter of taking depositions of officers of the International Paper Co. in its \$100,000 libel suit against the Lewiston (Me.) Journal which involves the question of whether the paper company is or is not a trust. The defendant, according to the complaint, called the corporation a trust within the meaning of the Sherman act.

Alonso N. Burbank, president of the International, submitted at today's short hearing the prices paid for the 15 paper companies taken over by the International when it was incorporated in 1908 for \$15,000,000. These are the prices as he gave them:

Fall Mountain Paper Co., \$3,555,500; Winthrop Paper Co., \$1,721,500; Webster Paper Co., \$632,500; Russell Paper Co., \$684,000; Falmouth Paper Co., \$325,000; Haverhill Paper Co., \$225,000; Glenn Falls Paper Mill Co., \$561,000; Hudson River Paper & Paper Co., \$1,461,000; Niagara Falls Paper Co., \$2,554,500; Lake George Paper Co., \$1,231,200; Herkimer Paper Co., \$392,500; Otis Falls Paper Co., \$1,707,500; Montague Paper Co., \$1,645,500; Glendon Co., \$2,648,000; Rumford Falls Paper Co., \$2,914,450.

#### GIRL STITCHERS

QUIT THEIR WORK IN A BEVERLY  
FACTORY

BEVERLY, Jan. 31.—Because of the refusal of the firm to permit visits from a collector of dues for a union, 150 girl stitchers at the Woodberry Shoe company went out on strike today. The firm claimed that on the days that the collector visited the shop there was a marked decrease in the output.

Popular Hall, Asso., There, night.

CARDINAL O'CONNELL

## Thousands Greeted His Eminence on Arrival in Boston

BOSTON, Jan. 31.—A blinding snow-storm failed to temper the warmth of the welcome extended to His Eminence William, Cardinal O'Connell, archbishop of Boston, upon his arrival today from Rome with the highest insignia that can be bestowed by the pope, the red hat of the cardinalate. From the greetings offered in the library of the steamer, Canopus, by Bishop Anderson on behalf of the church, by Mayor Fitzgerald on behalf of the city and by Collector Curtis on behalf of the nation, the progress of the harbor and the brief journey through the snow-covered streets to the residence in the Back Bay, the fervor of the salutation to Boston's

first prince of the church was without reserve. The cardinal's red hat and broad smiling face were seen by more than a hundred thousand people as he passed by automobile through the streets at the head of a procession made up of Irish societies and Catholic laymen. The welcome which began today will extend for a couple of weeks and some time later a palace will be erected near the city for the head of the million and a half Roman Catholics in New England.

Fr. O'Brien a Monsignor  
Before landing Cardinal O'Connell

announced five important appointments by the pope, those of Rev. Ambrose Roche of Watertown, and Rev. William O'Brien of Lowell to the monasteries as domestic prelates, Rev. M. J. Spaine of the cathedral as a papal chamberlain.

He also brought an expression of affection from the holy father which not only included all Catholics but the people of America of every faith. Arrangements for the reception to Cardinal O'Connell, was somewhat complicated through the discovery of a case suspected to be smallpox on the Canopus. It had been planned to bring the steamer up to her dock and take the cardinal off there but the delay in

### WANTED A CHANGE

Young Man Wished to Learn a Trade

"Do you want to learn a trade?" asked Judge John J. Pickman of William H. Ramsey, who was arraigned before him in court this morning on a complaint charging him with being a vagrant. "I don't want to," said Ramsey, "but I want to learn a trade. I am a vagrant because I have no money to live on. I want to learn a trade so I can get a job and make money to live on."

The judge said that he would let Ramsey go on condition that he find a job within ten days. If he does not, he will be arraigned again.

Ramsey said that he would find a job. He said that he had been working for a man in Lowell for some time, but that the man had fired him because he was not a native-born American.

Judge Pickman said that he would let Ramsey go on condition that he find a job within ten days. If he does not, he will be arraigned again.

#### Case Again Continued

Nicholas P. Thomas, who was arraigned on this morning for trial in the case of the complaint against him for being a vagrant, was again arraigned in court this morning. It is alleged that he was found in the street in a drunken condition, and that he was unable to give a satisfactory answer to the questions of the police. The judge said that he would let Thomas go on condition that he find a job within ten days. If he does not, he will be arraigned again.

Counsel for the defense announced this morning that he would ask the court to let his client, Nicholas P. Thomas, go on condition that he find a job within ten days. The court said that it would let Thomas go on condition that he find a job within ten days. If he does not, he will be arraigned again.

Counsel suggested that the case be placed on the list for trial on Saturday. The court said that it would let the case stand over until Saturday.

#### Tewksbury Case

Walter F. Cooke was charged with drunkenness and unlawfully passing on the property of the Tewksbury Tainter of Tewksbury. Cooke asked that his case be continued until tomorrow in order that he might have counsel, and the court granted the request.

#### Drunken Offenders

Adam Goley entered a plea of guilty to a complaint charging him with drunkenness. Mrs. Goley, through an interpreter, said that when her husband is intoxicated he makes a disturbance in the house. Goley pleaded to the court that he would do better in the future and with that understanding he was given a suspended sentence of two months in jail.

John Donovan was fined \$5 and several simple drinks were released before the opening of the session.

### CHINESE OFFICIALS

Visit American Admiral at Nanking

NANKING, Jan. 31.—Wang, Chang Wei, the foreign minister, and Chin Chin Tso, the finance minister, in the republican cabinet, called today on Rear Admiral Joseph D. Mervine, commander of the United States Asiatic fleet on board the special service ship Rainbow. William T. Grimes, the United States consul at Nanking, was also present at the meeting. The two republican ministers conversed pleasantly for some time with the admiral and the consul.

No reports have been received here of serious fighting between the nationalists and the coalition.

It is asserted in authoritative quarters that information has been received that the throne has passed a private edict indicating that abdication is pending.

#### SUITCASES STOLEN

VERMONT MAN ROBBED BY A CLEVER RUSE

BOSTON, Jan. 31.—Raymond M. Libbey, whose home is in Randolph, Vt., has been staying at the Lowell Hotel for the past few days, and yesterday morning decided to go back to Vermont.

He was driving alone into the pocket to buy a ticket when a stranger tapped him on the shoulder and said, "Hi, how are you, Libbey?"

"Hi, how are you?" the hotel and you had better believe, for it is from your wife."

Libbey turned to look at the man and in the meantime, while the man with the money was standing in front of Libbey's room, the other man hurriedly packed the suitcases with him.

It was not until about a quarter of several minutes later, when a telegram came that Libbey received the loss, and the other man had a better carrier of the car out of the hotel and said, "Hi, how are you, Libbey?"

An hour later Libbey called a detective and the man was brought to the police and arrested. He was found to be a vagrant and was taken to the police station.

In the city police court, under the name of Howard H. Thomas, the man was sentenced to six months in the house of correction. The police are looking for the man who walked away with the suitcases, and a reward is being offered for his capture.

#### EXPRESS RATES

INTER-STATE COMMERCE COMMISSION BEGINS INVESTIGATION

WASHINGTON, Jan. 31.—The interstate commerce commission today began an investigation of express rates. The commission is to hear evidence from the express companies and from shippers. The investigation is being held in the commission's hearing room in the department of commerce building.

# THE SCHOOL BOARD SUIT FOR \$6,000,000

## Elected Carl D. Burt Sub-master Entered Against State Treasurer of the High School by Royal Arcanum

At a regular meeting of the school board held last night, a resolution was adopted to elect Carl D. Burt, sub-master of the high school, to represent the board in the suit for \$6,000,000 against the state treasurer, which was filed in the supreme court yesterday. The resolution was adopted by a vote of 10 to 2. The board also elected a committee to prepare a statement of the board's position in the suit.

The Greenleaf School. The board also elected a committee to prepare a statement of the board's position in the suit. The committee will consist of Mr. Burt, Mr. [Name], and Mr. [Name].

Mr. Burt, who is a member of the board, was elected sub-master of the high school. He will represent the board in the suit against the state treasurer.

Rules of Quarantine. The board also adopted rules of quarantine for the school. The rules are designed to prevent the spread of disease among the students.

Opinion of City Solicitors. The board also received the opinion of the city solicitors. The opinion is that the board's position in the suit is strong.

Arbor Day Planting. The board also approved a plan for arbor day planting. The plan is to plant trees in the schoolyard and in the neighborhood.

Dr. O'Connor. Dr. O'Connor, who is a member of the board, was elected to a position of honor. He will represent the board in the suit against the state treasurer.

Sup. Whitehead. Sup. Whitehead, who is a member of the board, was elected to a position of honor. He will represent the board in the suit against the state treasurer.

Such a chimney. Such a chimney, such a chimney, such a chimney. The board also approved a plan for a chimney. The plan is to build a chimney in the schoolyard.

E. A. WILSON & CO. E. A. WILSON & CO., E. A. WILSON & CO. The board also approved a plan for a chimney. The plan is to build a chimney in the schoolyard.

BOSTON, Jan. 31.—The Royal Arcanum, through its supreme council, has brought suit for nearly \$6,000,000 against the state treasurer, which was filed in the supreme court yesterday. The suit is for the recovery of the state's share of the cost of the high school.

The suit is based on the new franchise law, which the council contends authorized it to become custodian of its own funds. Treasurer Stevens is in doubt whether it does or not, hence the suit.

On Jan. 30, the council's supreme council, through its supreme council, has brought suit for nearly \$6,000,000 against the state treasurer, which was filed in the supreme court yesterday.

## DON'T USE DRUGS FOR CONSTIPATION

Just Try Nature's Cure. We all know that constipation brings on countless other complaints if not taken in hand, appendicitis among them—also that any drug will lose its power after being taken for a time—but we should also know that Nature can be assisted instead of being forced, so much the better for our health.

There is now a method of internal bathing which will keep the intestines as clean and pure and free from waste as a vacuum. This is done by the use of the "Bilex-Jaynes Drug Store in Lowell."

That method is the "J. B. L. Casco" which is being enthusiastically used by many thousands is prescribed by the most distinguished physicians everywhere, and is now being shown and explained by the Bilex-Jaynes Drug Store in Lowell.

Everyone should at least investigate this nature-cure without delay. Ask for Bilex "Why Man of Today is Only 50 Per Cent. Efficient."

## CARDINAL IS HOME

Continued

quarantine obliged the committee to take the cardinal half-way down the harbor.

The steamer reached quarantine early in the day and shortly after dawn the committee boarded the vessel and found the cardinal eagerly awaiting their coming. After brief interviews with his many friends the committee assembled in the library of the steamer, where the cardinal was formally welcomed by Mayor Fitzgerald. In replying Cardinal O'Connell spoke with marked deliberation and emphasis.

## Cardinal Pleased

He expressed his joy in returning to Boston and said that he never yearned so to get back. He spoke of the consistency of the magnificence of the gathering and the notable personages there.

Then speaking directly of the holy father, he said: "You should have seen the notion with which he spoke of America, of the hospitality of its shores, of its religious and civic freedom and of the great responsibility which he feels. He looks over to the sun to this great land for consolation and he asked me to go back and say that 'We rejoice in you rejoice in the honors that we confer.' He spoke of the prosperity due to religious liberty, but more than all he spoke of the love and affection to the people here, not only to all the Catholics but to those who are not Catholics. And when I spoke of the good will which has been extended to

objection to the proposed new members.

Two days later the new cardinals were received by the pope. Upon the head of each was placed the red biretta. The pope spoke in praise of the American cardinals and declared they had been selected for the honor because of their piety, zeal and culture. He expressed pleasure at the growth of the Catholic church in America.

The most brilliant of the ceremonies connected with the elevation of the cardinals was the public consistory held in the hall of beatification at the Vatican on Nov. 25. The new cardinals were then given the red hat, which is a mark of their office, though it is worn but seldom.

Over 100 Americans attended. In splendor and in variety of costumes the scene was similar to the great ceremonies of past centuries. The artistic costumes of the Swiss guards, the robes of the famous Sistine choir, the garbs of prominent ecclesiastics and members of the papal court, of the cardinals of course, noble guards and the pope in full pontifical robes, combined with the brilliant display of lights and flowers and the wonderful shining of the Sistine choir to create an effect of wonderful beauty.

Later the pope gave to each new prince of the church the ring of the cardinal. For the first time it will be seen in Boston, now that Cardinal O'Connell returns. It is a simple ring, with a large sapphire, without any other stones, set solidly in gold, and is constructed so as to allow of the papal coat of arms to be engraved on the back.

On the new cardinals the pope also

strike leader, who was here last week would be in Lawrence before dark could not be confirmed.

Quiet prevailed in Lawrence today and as a result there was a large increase in the number of operatives who returned to work. The agents of the mills that are operating declare that the increase is general and that they are hopeful that an even greater number of workers will appear tomorrow. The presence of the additional troops of militia which has been sent in the restoration of order has evidently swept away the fears of the strikers to work unmolested.

Through his counsel, Ettore sent a signed statement to the strikers committee requesting the members to refrain from any further strike action and to return to work.

The statement follows in part: "In accordance with the desire of the mill owners to break your strike and that they may spin and weave your lives into cloth, they arrested you and threw you into the back of the strike."

Let this serve you as a spur and determination to carry on the strike to a successful conclusion. Fellow Workers of New Bedford, secretary of the textile workers' branch of the Industrial Workers of the world has been advised what to do and in a day or two will be here.

At the American college, Mr. Kennedy gave a dinner at which a great gathering of students and faculty members were present. The dinner was given in honor of Cardinal O'Connell and the other American cardinals.

On Dec. 8, the birthday of Cardinal O'Connell and the feast of the Immaculate Conception, the Boston prelate took solemn possession of the Church of San Clemente. During the ceremony the American flag waved from the belfry. Thomas J. O'Brien, the American ambassador, attended. Cardinal O'Connell made a notable address and the history of the famous church. Plans were started to secure a fund to save from invading water the art treasures in the lowest of the three churches, for San Clemente consists really of three churches, one built upon another during the passage of centuries.

Cardinal O'Connell was appointed to important conferences and was given marks of special favor by the pope. These, who were in Rome state that among the new cardinals he was noted as a man of exceptional ability.

At the hotel Cardinal received a constant stream of prominent ecclesiastics and diplomats, all of whom expressed their admiration for his abilities.

After a brief rest in the vicinity of Naples, the cardinal boarded the Campania and on Jan. 18 the return trip to Boston started.

## LOWELL PEOPLE

MANY WENT TO BOSTON TO TAKE PART IN PARADE

A large number of prominent residents of this city went to Boston today to attend the reception to Cardinal O'Connell.

The Lowell delegation included about 150 of this number many will participate in the parade while others will remain along the line of march and greet his eminence as the procession passes. The members of the Knights of Columbus left on an early train and were active in Prince Albert and wore tall hats. The other members of the Lowell party to take part in the parade also wore tall hats.

## CLEAN CLOTHES

FELL FROM SLEIGH IN CHELMSFORD STREET

A local landman struck hard luck this afternoon, when about half of his load of clean clothes which he was delivering to customers was dumped in to Chelmsford street.

Two young men were driving a covered sleigh loaded with baskets of clean clothes which probably represented half week's pay, when opposite Friend Street, in Chelmsford street, they heard of the sleigh going away and several baskets of clothes were thrown in the slushy street.

The young men were not aware of the fact that they were being told by a passer-by. They quickly picked up the clothes and drove back to the laundry where the articles will be given another good washing.

Through his counsel, Ettore sent a signed statement to the strikers committee requesting the members to refrain from any further strike action and to return to work.

The statement follows in part: "In accordance with the desire of the mill owners to break your strike and that they may spin and weave your lives into cloth, they arrested you and threw you into the back of the strike."

Let this serve you as a spur and determination to carry on the strike to a successful conclusion. Fellow Workers of New Bedford, secretary of the textile workers' branch of the Industrial Workers of the world has been advised what to do and in a day or two will be here.

At the American college, Mr. Kennedy gave a dinner at which a great gathering of students and faculty members were present. The dinner was given in honor of Cardinal O'Connell and the other American cardinals.

On Dec. 8, the birthday of Cardinal O'Connell and the feast of the Immaculate Conception, the Boston prelate took solemn possession of the Church of San Clemente. During the ceremony the American flag waved from the belfry. Thomas J. O'Brien, the American ambassador, attended. Cardinal O'Connell made a notable address and the history of the famous church. Plans were started to secure a fund to save from invading water the art treasures in the lowest of the three churches, for San Clemente consists really of three churches, one built upon another during the passage of centuries.

Cardinal O'Connell was appointed to important conferences and was given marks of special favor by the pope. These, who were in Rome state that among the new cardinals he was noted as a man of exceptional ability.

At the hotel Cardinal received a constant stream of prominent ecclesiastics and diplomats, all of whom expressed their admiration for his abilities.

After a brief rest in the vicinity of Naples, the cardinal boarded the Campania and on Jan. 18 the return trip to Boston started.

## LOWELL PEOPLE

MANY WENT TO BOSTON TO TAKE PART IN PARADE

A large number of prominent residents of this city went to Boston today to attend the reception to Cardinal O'Connell.

The Lowell delegation included about 150 of this number many will participate in the parade while others will remain along the line of march and greet his eminence as the procession passes. The members of the Knights of Columbus left on an early train and were active in Prince Albert and wore tall hats. The other members of the Lowell party to take part in the parade also wore tall hats.

## CLEAN CLOTHES

FELL FROM SLEIGH IN CHELMSFORD STREET

A local landman struck hard luck this afternoon, when about half of his load of clean clothes which he was delivering to customers was dumped in to Chelmsford street.

Two young men were driving a covered sleigh loaded with baskets of clean clothes which probably represented half week's pay, when opposite Friend Street, in Chelmsford street, they heard of the sleigh going away and several baskets of clothes were thrown in the slushy street.

The young men were not aware of the fact that they were being told by a passer-by. They quickly picked up the clothes and drove back to the laundry where the articles will be given another good washing.

# FIGURE SKATING REGAINING FAVOR ENGLAND HAS MANY GOOD REFEREES

TANDEM STYLE VERY POPULAR ABROAD.

By TOMMY CLARK.

**D**URING the past few seasons figure skating has received more attention than ever before from the participants in this popular and healthful form of winter sport. At the risks in American cities this season there has been a noticeable improvement in the styles and performances of the number who have taken up figure skating.

Irving Brakow, the American champion of 1911, predicts that skating in this country will in a short time be almost as popular as it is in Europe and that the continental style of figure skating, with its long, swinging, curved lines, executed while the body assumes a graceful, natural pose, is increasing in popularity here and will be generally adopted by fancy skaters on this side of the Atlantic.

It is proposed to introduce a system known as the International style, which has grown so popular among the continental skaters that there is now a generally accepted standard of competition throughout the European continent and the British Isles. Countless exhibitions throughout Europe foster the sport, and a very large number of contests of national and international character are held in the season.

## Figure Skating.

Many people consider all skaters as one class of athletes. They know too little of the vast difference between the methods of the speed expert and those of the figure skater and work on the theory that the faster man must also be an able executor of fancy strokes, simply because he is proficient in track contests and vice versa. Nothing could be more fallacious. You might as well believe a billiard champion to be a formidable pool player through the fact that he understands the use of a cue. Figure and speed skating are separate arts, just as billiards is in no wise similar to pool.

The figure skater is more of what might be termed an artist than is the speed performer. He is credited in competitions for the carriage and balance of his body, the facility with which he cuts figures, the accuracy of his strokes, etc. His racing brother, on the contrary, wins by crossing the finish line first, irrespective of the technical perfection of his stroke or the degree of development toward the mastery of what constitutes good form. Of course the carefully trained, scientific racer economizes in strength and wind by following approved and hence improved methods, but his glory and gold medals are the rewards of strength, speed and endurance more than skill.

The beginner in figure skating finds the approach to this fascinating pastime led by difficulties. Unless he is determined to succeed he will never rise above mediocrity, which condition every right minded person should abhor in any branch of endeavor. First, the beginner must learn what to do, next how to do it and then how to do it properly. Lastly he must practice faithfully, so that his muscles will receive necessary training, that his balance and poise will be improved and his knowledge of figures made comprehensive. One figure leads to another, just as arithmetic paves the way for algebra and geometry in school. Simple strokes graduate into the combinations and these in turn merge into the complex.

TWO VIEWS OF THE WHIRL, POPULAR IN AMERICA.

Only he that has a trustworthy knowledge of the skating alphabet will try to force himself into the higher circles of competition and accomplishment. Therefore, take time for the forelock and build your reputation on a firm foundation.

"Imitate the leaders" is the rule laid

down for beginners in many lines of athletics, and to some extent it is a good one for ambitious figure skaters. Single out some expert and watch him so closely that he may suspect you of being a detective on his track, but do not sacrifice your own individuality in his style.

## GOOD REFEREES

ENGLAND may not produce as many great fighters in the ring, but there is one thing about Great Britain's boxing that doesn't prevail in any other country where boxing is generally practiced. They have mighty few bluffs over referees' decisions on the other side.

And even American fighters who go to England and meet the best of them on the other side have few complaints to make of their treatment by British referees. Not that they are afraid of them, but that they are a thoroughly capable man in the ring. Harry Foley is another good man in the ring, and Eddie Haulon also may be mentioned among the younger generation.

In the east that sterling old veteran, Charlie White, seems to be the best, although he, too, comes in for much scolding at times. But that is the portion of many a thoroughly capable man.

Eddie Santry is easily the best referee around Chicago for miles and is followed closely by Charlie Layne, who hasn't had the experience necessary as yet.

Billy Hancock, in Memphis, despite frequent bluffs on his verdicts, is as good a young referee as there is in the country, and nothing can be said about his absolute honesty. The same is true of Tommy Walsh, who has acted in many a tough battle in New Orleans and the south. Harry Stout also may be said to be a good man.

Herman Kleibrecht is showing a superior grade of work around St. Joseph, Mo., and Kansas City, and Jimmy Bronson is doing well in handling battles in Springfield and Joplin, Mo. There are others, but the list is skimpy and meager. We have fighters galore, but few men capable of handling them. Strange, but all too true.

## Curling Becoming Popular In This Country

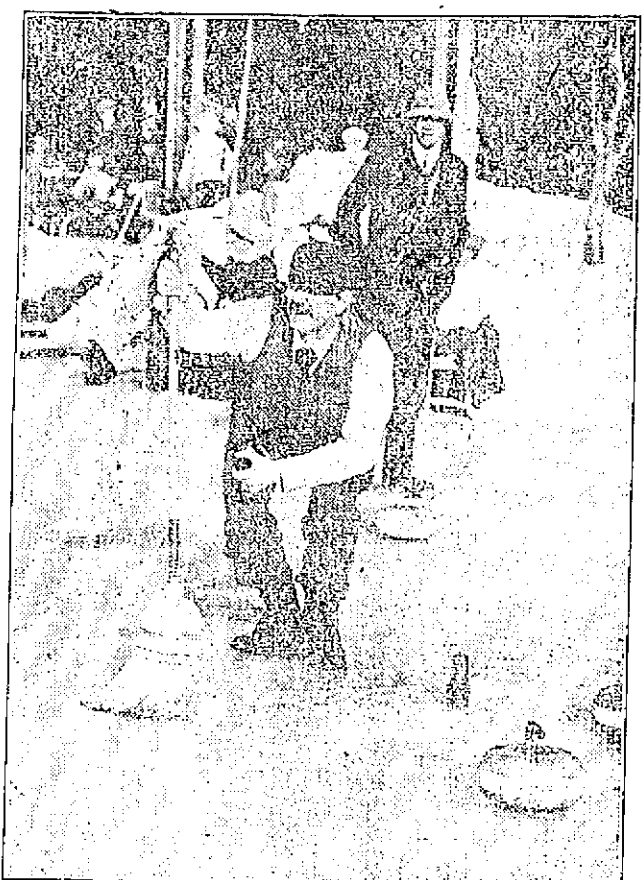

Photo by American Press Association.

CURLING, that great Scottish game seems to have gained a firm hold in the United States and Canada within the last few years. This winter more matches than ever have been held. The visit of thirty-one curlers from Scotland to Canada recently added renewed interest to the game in the Dominion. Picture shows earlier effort to heave the stone.

## Soccer Football Gaining In Favor

ONE sport that has advanced more than any other in this country during the last year is association football, or soccer, as the game is more generally designated. The latter is a slang term applied by English collectors, who use the word rugger to denote the game of Rugby, from which the American style of football was developed. For the last ten years efforts have been made by followers of the game to plant it firmly in this country, but it was only when more or less dissatisfaction was expressed with the American game that these efforts began to bear fruit.

Five or six years ago when football was barred at Wisconsin the director of athletics procured some association balls, but the students could not be induced to do more than kick them around in an aimless manner. Two or three years later the western conference took up soccer, Chicago and Illinois put teams in the field, and now nearly every college in the west has its soccer team.

The game took more readily in the eastern colleges, getting its start mainly from English or colonial students who played their own games and enjoyed it whether it suited the populace or not. Columbia was one of the first to put a team in the field, while Cornell was quickly in line with a cosmopolitan aggregation.

Captain Dalton of the Naval academy introduced the game at Annapolis, and there are now about forty midshipmen playing it with the idea of arranging games next season.

Soccer always has been strongly entrenched in factory towns where the English residents played the game and attracted big crowds to the matches. Interest was increased by the tour of the crack Corinthian team of England last year, and its further spread is assured now that the National Collegiate association has appointed a committee to supervise the sport.

The game is a clean one and faster than either American football or Rugby. It can be played at easily, but requires considerable practice to be played properly. Time was when rugger was of far more importance in England than soccer, but gradually the latter game grew until it is now the reigning winter game abroad, and the final one to be attracted as many as 125,000 spectators.

How long it will be before soccer dominates winter sports here is a question, but its rapid strides in the last few years, its speed and the possibility of a long season are all factors in its favor.

## FLYNN'S CHANCES WITH JOHNSON

JUST how much chance Jim Flynn will have in the proposed match with Jack Johnson is perhaps best shown when his former fight with the colored champion is recalled. Flynn did not land a blow on Johnson in that battle, which took place in 1905. Johnson just kidded with him, laughing at his efforts to reach him. Flynn finally lost his temper and called Johnson a name, whereupon the laugh left Johnson's face, and he got down to business. Result, a knockout, and that when he was trying in only one round.

## THREE SMALLEST PITCHERS.

Jack Warhop of the New York Americans, Knapp of Cleveland and Cloutier of Boston are the smallest pitchers in the big leagues, although Earl Hamilton of the Browns is no giant.

## CHOYNSKI TELLS HOW HE KNOCKED OUT JOHNSON

IN these troublous times for fighters, when the heavy pay of the law has cast a gloomy shadow over the entire game, small chips of cheer become bright stars of hope and the possibility that Champion Jack Johnson may fight again for the heavyweight title of the world has aroused light fans from their torpid slumber. Whether Johnson fights in this country, Australia or China and when he comes is not yet the question; at present we are merely hoping for a match with the intensity of a shipwrecked sailor on a desert shore who wants to start a fire.

Johnson's history in the ring covers many adventures, but perhaps there is no battle in his record more worthy of description, with all its attendant incidents, including a thirty days' jail sentence, than his first bout with a really good fighter, his battle with Joe Choynski at Galveston, Tex. If this is admitted, certainly we must admit that no man is better fitted to tell the tale than Choynski, the winner, and the following story is in Joe's own words:

"It was in February, 1901, that I received a telegram to come to Galveston and act as sparring instructor for the athletic club and give an exhibition with Jack Johnson for ten rounds. Johnson had defeated several men and was cocky—was insistent in his demands that they bring J. J. Corbett down for him to meet.

"I had appeared in Galveston, having defeated my former champion, one Berman, in three rounds, but they told me this black chap was a fighter—big, strong and clever, and weighing 192

pounds. My weight was 169 pounds. "I arrived in town a week before the contest and took a few turns over the beautiful beach to keep in trim—the city was still desolate, due to the recent tidal wave and storm, and the hall in which we appeared looked no better. However, a big house greeted our appearance with no hinting of trouble, no casting of shadows.

"I had never seen my opponent in action, but he certainly looked formidable. Time was called for the first round. I started toward him and he backed away and kept backing for the entire round. Second round, the same thing. As I went to my corner at the expiration of the round I felt that I should have to do something—take a

## Oiling Bodies Will Not Help Pugilists Like Wrestlers

IT is an old, very old, trick of wrestlers to oil or grease their bodies before going into a contest, and some wrestlers, especially the Japanese, still work oil or grease into their skin in training for a match on the mat. The effect of oil or grease worked into the skin thoroughly is to make it difficult for a man to get a good hold on a wrestler or to maintain the grip after it is taken. But the effect is of little use if both the men are greased or oiled, for if once more puts them on the same level as they were when they started or before either was oiled.

But of what particular benefit oil or grease on the body of a boxer or fight-

punch to give one, as he appeared to be waiting either for me to tire or merely to stay ten rounds.

"When time was called I walked up and left my guard open purposely. He fell for it and sent in his left, but I countered with a left hook on his eye and he went down, was counted out, and the referee declared me the winner.

"After the fight all hands were arrested by the Texas rangers. They threw Johnson and myself in the booby hatch and tossed the key in the Rio Grande. It was some time before I managed to make my getaway, and, believe me, they'll never get another chance to arrest Joe Choynski in Texas."

## When Dan Brouters Needed a Saw Log

THERE was a time when it was next to impossible for a major league team to win a close game in some places in the south, but fans have been taught now that it isn't the correct idea of sportsmanship to call out visiting batters on strikes when the ball is not within inches of the plate.

## "WINLESS WONDER" DEFEATED IN OVER 200 MATCHES

"BACK in 1899," says Paddy Carroll, the old time fighter and fight promoter, "I was running a boxing club—

"Well, son," said I, "you seem to have fought them all, but they all seem to have defeated you."

"Yes, Mr. Carroll," said he. "They all beat me, but I gave them all good fights. I never won a fight in my life, Mr. Carroll, but some day I'll beat somebody."

The Winless Wonder.

"I laughed long and heartily and then looked Strong, whom I promptly rechristened the Winless Wonder, for the semi-friendship of the coming show. His opponent was a new performer who had been going well and beating a lot of second raters and seemed about ripe for faster doings, and by advertising Strong's many battles with Dixon, Gardner and the others I worked up a good deal of interest in the match.

"Well, the battle started as per schedule, and Young Kelly, the local light, didn't seem to get his stride. The Winless Wonder, with experience and pluck to help him, beat the boy all

around the ring. For three rounds he slammed and whalloped Kelly, and as the going ended the third session it looked as if the youngster couldn't go much farther.

Victory In Sight.

"Son," said I as I passed Strong's corner, "it seems you are going to break your record at last and win a fight."

"I hope so, Mr. Carroll," Strong replied. "I hope so, but I can't believe any luck will hit me!"

They rushed together again and again. Strong whaled the junior round the ring. At last Kelly received a glorious blow on the side of the head and went to the floor. He got up at the eighth call, and Strong toppled him again. He got up at nine; Strong rushed over Kelly's foot and dived headlong through the ropes. As he fell his head struck the press table, and he was stunned. The poor fellow couldn't go on. The referee had to give Kelly the decision, and the incomparable record of the Winless Wonder remained unbroken."

Griffith and Callahan will fight duel on ball field.

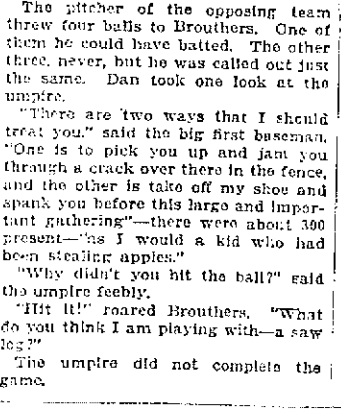

A PITCHING duel between the two battle scarred veterans of the old war days is a possible feature of some summer afternoon this season at Comiskey's Chicago ball park. James J. Callahan, manager of the White Sox, received a formal challenge recently for such a combat, Clark Griffith, new manager of the Washington team, being the sender. Both these leaders of modern baseball teams were twirlers in the days gone by, both being on the Chicago National League club and both going over to Comiskey's team when the American League expanded.

The pitching days of each have long since passed away, but the friendly rivalry probably will continue when they are old gray bearded men.

## Cambridge Crew Out For Early Morning Spin on Cam

Photo by American Press Association.

Oxford is already favorite for the annual inter-university race with Cambridge, which will be rowed on the river Thames, March 20, at 11:30 a. m. The contest will be rowed over the historic course from Putney to Mortlake. Picture shows the Cambridge crew out for an early morning spin on the Cam river.

## Griffith and Callahan Will Fight Duel on Ball Field

In his letter says: "You are heralded as the great comeback man of the ball. Let's see if you have any nerve. I don't think you'd dare pitch a game next summer against me. I'll let you pull it off on your own grounds if you are game enough to accept."

Call's answer to his old mate reads like this: "You're a cross old man. The older you get the crosser you are. You hadn't been back in the American League ten minutes before you wanted everything. I'm going to try to live a square and upright life and I don't think it would be fair to an old man to accept a challenge to go out and pitch a game against him. Why, you were an old man on the Chicago Na-

tion when I first joined the club."

## A REAL NAVIGATOR RECEIVED PALLIUM

## Woman Took Turn at Schooner's Helm

BOSTON, January 31.—One of the few women navigators in the world is Mrs. Charlotte Patton, the pretty young wife of the skipper of the five-masted steel schooner "Kino," which made port yesterday from Cuba. Mrs. Patton holds the world's record for the number of times that a woman has steered a ship.

Eight different times she has helmed the "Kino" around the world. She is an expert navigator and on many occasions she has taken the helm at the helm when they were blown out through stress of weather. On the last trip around the world the vessel encountered terrible weather and was nearly wrecked. She was 200 days from New York to Philadelphia and had been given up for lost when she pulled into the harbor.

Mrs. Patton makes her home on board the vessel. Her 25-year-old daughter, Mary, is playing about the door with her dolls and toys when the vessel arrives. Mrs. Patton sent another daughter was attending school at Philadelphia.

Mrs. Patton is not only a navigator, but she is also a talented artist, and many of her sketches adorn the walls of the cabin. They represent various parts of the world where the vessel has traded.

The "Kino" brought 20,000 gallons of molasses in bulk from Cuba. The steamer "Calais," from the schooner to New York, and the tug "John J. Thompson" brought the remainder of the cargo to Boston.

The "Kino" is the only steel five-masted schooner. The cost of constructing and equipping her was about \$150,000.

Good music, Lincoln Hall, Thurs. eve.

## MANY VACCINATED

## NO NEW SMALLPOX CASES IN ARLINGTON

ARLINGTON, Jan. 31.—No new cases of smallpox were reported yesterday and the six who are afflicted are doing as well as can be expected, all having a light attack except Arthur McMahon.

Yesterday was a busy one for the board of health. Every child in the seventh and eighth grades of the Central school, where Arthur Fowler has been a pupil, was vaccinated yesterday by Dr. Guy E. Sanger of the board of health and Dr. C. F. Atwood, the school physician. It was compulsory vaccination and none was omitted. After the children were treated the school was closed and today will be fumigated from top to bottom and kept closed until next week in order to make certain that the danger of contagion is over among the children.

A detail of police is on duty in front of the house every minute and the customary red flags and lanterns have also been placed about the place and the sidewalk kept off.

Yesterday afternoon there was to have been a punch and party show in the town hall for school children, but it was postponed.

Dr. Sanger had hunted up all persons who have been exposed to any member of the family and vaccinated them. In the light section there have been a very large number thus treated. As Mrs. McMahon was prominent in the life of the Methodist Episcopal church of the Heights, many who attended a recent social at the church are conversant with the fact that Mrs. McMahon made cake and many ate it. Mrs. McMahon has been infected since December 20.

## CAMERON CAR CO.

Is in Bankruptcy With \$209,346 Liabilities

BOSTON, Jan. 31.—Liabilities of \$209,346 are shown in the schedule filed in the United States district court today by Treasurer A. B. Emerson of the Cameron Car Co. of Beverly, Mass., and Allen H. Bennett, its president. The company's assets are valued at \$30,000, of which the Beverly plant represents \$25,000 and the Allen factory \$17,500. There are about 300 creditors, the heaviest being the Beverly savings bank, with a claim of \$95,187, partly secured by a first mortgage on the Beverly plant; Allen H. Bennett, of Beverly, \$85,150, partly secured by a first mortgage on the machinery in the Beverly plant; and Joseph Randolph of Norristown, N. J., \$16,000, with a second mortgage on the Beverly property of the company as partial security.

## THE SUN'S DAILY PICTURE PUZZLE

A COME-DOWN.  
What splendid ideas youth instills,  
And how hard knocks dislodge 'em!  
I used to want to meet my life,  
But now just want to dodge 'em.

Find a creditor.  
ANSWER TO YESTERDAY'S PUZZLE:  
Lower right corner down, in smoke

## Archbishop Prendergast Invested Today

PHILADELPHIA, Jan. 31.—In the presence of Cardinal Gibbons and Cardinal Farley and 18 bishops representing the archdiocese of Philadelphia, the archbishop of Philadelphia, Prendergast, was today invested with the sacred pallium of his office. The ceremony was of a most elaborate character.

The investiture took place after the conclusion of a solemn pontifical mass. The vestment of the mass was the Right Rev. John Fitzgibbon, bishop of Erie and the ceremony was performed by the Right Rev. J. F. Rogers, Coadjutor, bishop of Pittsburgh.

Good Day Association, Thru. night.

## MATRIMONIAL

Mr. George Greenberg and Miss Ida B. Baker were united in marriage in Lincoln hall last night. There was a large attendance of relatives and friends. Mr. Frank Greenberg acted as best man and the bride was attended by Miss Cora Baker of Boston. The ancient Jewish ceremony was used. Rabbi Friedman of Boston officiating, assisted by Mr. H. Kaplan as cantor. Guests were present from New York, Boston, Rochester, Beverly, and some from the distant state of Texas. After the wedding journey, Mr. and Mrs. Greenberg will reside in this city, where the bridegroom is engaged in business.

## LAWRENCE McCRANN

## Had Narrow Escape from Serious Injury

Lawrence McCrann, coachman for Dr. Joe W. Meigs, had a narrow escape from serious injury late yesterday afternoon when the horse he was driving ran away in Vermont avenue.

The animal was being driven at a moderate rate of speed through Vermont avenue. When it reached the corner of Mammoth road, the runners of the sleigh were caught in the electric car tracks and the sleigh was overturned. Mr. McCrann, rolling in the road, the horse then started at full speed, but Mr. McCrann held on to the reins and somewhat checked the animal's speed. The horse turned into Mammoth road dragging the coachman along, and at this moment, Mail Carrier Edward Lynch who was on duty in that district, jumped at the horse's head and brought it to a full stop.

Fortunately the coachman only received a few scratches, while the sleigh as well as the horse was unharmed.

## CARPENTERS' UNION

## LOCAL 49 HELD REGULAR MEETING LAST EVENING

The members of Local 49, Carpenters' union held their regular meeting in Carpenters' hall, Rindell building last evening. Four new members were initiated and three preparations for membership were received. A communication from the Lawrence strikers appealing for aid was read. No action on the latter was taken owing to the fact that the I. W. O. is a dual organization of the American Federation of Labor. Reports were read which showed that the local is in a very flourishing condition. The members are expecting much work this coming spring and they are pleasantly awaiting the good weather.

## THE HIBERNIANS

## WILL HEAR LECTURE AT ST. PATRICK'S CHURCH TONIGHT

The members of the five local divisions of the A. O. H. and the members of the Ladies' Auxiliary of the A. O. H. will attend St. Patrick's church this evening to hear the second lecture of the series, especially arranged for their benefit by Rev. William O'Brien, P. M. chaplain of the order. The lecture will be given by Rev. Peter Chasick, S. J., professor at the Boston college. Last week the eloquent preacher made a great impression on the large congregation and it is expected that a large number will attend tonight's service. Fr. Chasick will take as his subject tonight "Respect for Civil and Ecclesiastical Authority."

## TRAPPED IN ICE

DULUTH, Minn., Jan. 31.—The steamer "Crescent," Captain Johns, of Duluth is trapped in the ice near Two

## A LITTLE NONSENSE

First Actor—When I'm telling, my very spirit is thousands of miles away.  
Second Actor—My boy, that's where you have it on the audience.

Messenger—I'm from Mr. Spenger. Mr. Coyne—Well?  
Messenger—You lent him your auto this morning, and he wants to know now if you will lend him the price of his first?

Islands on the North shore. After leaving Grand Marsh a week ago with a ton of herring bound for Duluth she became wedged in heavy ice. There is no hope of a tug being able to reach her. She carries a crew of five.

## PLEASANT AFFAIR

### John Hancock Employees Enjoyed Banquet

The employees of the John Hancock Mutual Life Insurance Co. had quite a spread at the Vesper Country club last night. The affair consisted of a banquet followed by speeches and an entertainment program.

The 50 local agents, the five assistant superintendents and five of the office force, headed by the superintendent of the local office, Mr. Frederick G. Woodworth, rode on the 4 o'clock express train which made a special stop at the club house for them. The banquet was served at 5:30 o'clock, and Mr. Woodworth presided over the festivities.

At the conclusion of the meal the following very interesting speeches: President Roland O. Lamb, of Boston, Second Vice-President Edwin D. Holmes, of Boston, Assistant Superintendent Albert H. Brock, of Boston, Supt. Andrew Kirk of Haverhill, Supt. Charles Keniston of Malden, Supt. James C. Redfern of Haverhill, and Mrs. Ralph Livingston, Smith and Collins of this city.

This was followed by delightful musical selections by a quartet composed of Messrs. Foster, Clark, McNamara, and Sadler of the local office. These gentlemen also rendered several beautiful solos.

The party returned on the 9:30 o'clock train, which made a special stop at the club house.

## MANY MINERS DEAD

DANVILLE, Ill., Jan. 31.—A cage crowded with miners going to work in the Electric coal mine, six miles west of here, dropped 293 feet from the mouth to the bottom of the shaft today and many of the miners are reported fatally injured.

### ONE BIG SALOON

ELLEN M. STONE CLASSES WEST COAST OF AFRICA

WASHINGTON, Jan. 31.—"Men are divided into three classes. They are men who love their liquor; men who sell liquor and politicians who are on both sides of the question." Mrs. E. M. Stone, of Washington, Ga., made that statement to the house committee on judiciary today on consideration of her speech urging a law forbidding interstate traffic in alcoholic liquors.

Ellen M. Stone, once a missionary in Macedonia, spoke for temperance as an example to the people of benighted lands.

"The west coast of Africa is one big saloon," she said. "It is maintained by liquor from Britain and America."

Mrs. Stevens of Portland, Me., also spoke.

### 54 HOUR LAW

PETITION FOR ITS REPEAL BEING CIRCULATED HERE

A petition for the repeal of the 54-hour law is being circulated in Lowell. Storekeepers and mill officials have had the petition submitted to them and it was stated this afternoon that many signatures had been obtained.

### HELD IN \$1000

MANCHESTER MAN CHARGED WITH FORGERY

MANCHESTER, N. H., Jan. 31.—William B. Graham was charged in court today with forgery and was held in \$1000. He is said to have attempted fraud on several persons.

### WENT TO NEW HAVEN

Commissioner Brown went to New Haven, Conn., yesterday, to have a look at New Haven's great white way. He noticed, too, that there was no snow on the sidewalks in that city and he asked a policeman how it was that no snow was seen on the sidewalks. The policeman said that when an abutter failed to clean the sidewalk in front of his premises after a snow storm, the street department took the matter in hand, cleared the sidewalk and presented the bill to the abutter.

CAVALRY ON DUTY AT THE ARLINGTON MILLS IN LAWRENCE

# Since the Arrest of the Leader of the Strikers

LAWRENCE, Jan. 31.—85 great was the crowd which gathered on Common street this afternoon, expecting to participate in the parade which had been arranged to follow the funeral of the slain woman that the militia were summoned. The cavalry were marched through the streets, while corporals guard patrolled the sidewalks. It was said that the funeral which will be quiet and without display, may be held this evening.

The following statement was issued by the strike committee today: "We wish to reassure the strikers and the general public that the arrest of Fellow Worker Brown and Giovanni and other strikers has not weakened our position. Although the other side might be the trained men charged to stamp the strikers back to work."

"This is an infamously outrageous, the dastardly act of arresting these men and we call on every worthy citizen to join us in this struggle for better conditions for 20,000 textile workers."

"Let this be remembered that the strikers are not to be intimidated by the bayonets of the military or the clubs of the police. They have murdered our fellow workers and they have broken our heads and arms but they cannot break our spirit."

(Signed) "Strike Committee."

### EDITOR WAS COOL

WHEN HE APPEARED IN POLICE COURT

LAWRENCE, Jan. 31.—Appearing cool but with his usual confidential smile missing, Joseph E. Brown, the leader of 20,000 striking textile workers and their sympathizers who last night were arrested charged with being an access-

ory to the murder of Anna Lepizzo, pleaded not guilty to the charge in the local police court today and heard himself held without bail for a continued hearing on Feb. 2. The same disposition was made of the case of Mr. Antonio Giovanni, the strike leader's lieutenant, against whom a similar charge was laid. A determined effort was made by Attorney George E. Brown, Jr., of Boston, who defended the men, to have the court fix reasonable bail but Judge Chandler, who presided, refused to grant the request. It was announced that Frederick O. Mansfield, a prominent Boston lawyer had been asked to defend the strike leader and that the best legal talent in this coun-

try would be retained to fight the case for the two men.

The removal of the strike leader and his lieutenant to the Essex county house of correction was accomplished without incident.

### NEW LEADERS EXPECTED

With their leader held in jail without bail the strikers' committee was in executive session for several hours today planning the fight for its demands. Joseph Bedard, treasurer of the committee, said that several other leaders from New York and other parts of the country would be here tomorrow to take Eter's place. The names of the new leaders could not be secured. A report that William Heywood, the

### PRESIDENT TAFT

SAYS REPUBLICAN EDITORS MUST WIN FIGHT

COLUMBUS, O., Jan. 31.—President Taft in an address to more than fifty republican editors of Ohio today, declared that he believed the party would win in November but said that much of the brunt of the fight would rest on the editors. The president confessed that he had forgotten much about Ohio politics but said he depended on the editors to bring a victory in the fall. He said in part:

"The party has had during the last two or three years a hard time but it is not the first time in its history it has had to go over rough places. It is not the first time in history when it has been unjustly attacked, when it has been misunderstood by the voters and its own members and it will not be the first time in its history when I truly believe, the coming campaign will show what it has the power to win victory again and show that it is the real agency in the United States upon which real progress can be based."

"The truth is that we have not had the whole story told and it has been outlined in such a way that the issue cannot be distinctly made, and the facts bearing on that issue brought out. There has been a great deal of fog. But I think that when we get stripped for the fight and get down into the arena with only two antagonists and the parties drawn up on each side we shall be able to show a warrant for our continuance in power."

that common sense and a discriminating people cannot ignore.

"Upon your energy and faith in republican principles and upon your belief that the party has a large future of usefulness before it rests the question of whether we are to be successful in the coming campaign."

### CIVIL SERVICE

SEVERAL EXAMINATIONS TO BE HELD SOON

Frank Karbaum, deputy examiner for the civil service commission, was a caller at the city hall building today. There are several examinations coming up in February. On February 19 there will be an examination for janitors and foremen, the following day there will be an examination for clerks, the next day for police and two days later, February 23, an examination for firemen. The examinations will be held in the common council chamber.

In conversation with a reporter for The Sun, Mr. Karbaum said that about 300 examinations had been held by the commission since October.

# MURDER IS A MYSTERY

# No One Heard Shot Fired That Killed Morris

NEW YORK, Jan. 31.—Vague hints of a "manic" band that swore to wreak vengeance upon him who had discharged one of their number; a recital of a fantastic imbroglio involving two women; and a maze of other circumstances today confronted a dozen municipal and county investigators who bent themselves to the task of unravelling the mystery of the sudden death of George J. Morris, Jr., of No. 12 West Fifty-second street, Bayonne.

The body of Morris, who is only twenty-two years old and was well known and much liked in the New Jersey town, was found in West Third street, near Avenue A, Bayonne, at 5:30 o'clock Monday afternoon. He had been shot in the head.

Following a medical examination and failure to find the weapon with which the deed was committed, Acting Inspector Kelly and Hudson County Prosecutor Pierre P. Garvan, whose home is in Bayonne, discarded the first theory of suicide and instructed their men to work on the hypothesis of murder.

At the conclusion of the day it was determined to pursue the investigation along two lines.

It was learned that the young man was a shipping clerk in the office of the old Seeds company, which is only a few rods from the scene of the shooting, discharged a laborer several months ago. Subsequently the man hurled a vial of acid at the young man, exclaiming:

"I'll get square with you!"

The acid burned through the young man's clothing and seared his flesh. The man made his escape and the incident was forgotten until a few weeks later, when Morris and Superintendent Baker, of the company, began getting "Black Hand" letters. Mr. Baker told a reporter yesterday that no attention was paid to the missives, but that he believes they may have a bearing on the murder.

### Love Letter in Victim's Pocket

Another element that puzzled both the police and the young man's family was the discovery in the dead man's pocket of a rambling love letter, written evidently as a rough draft and addressed to "Miss Ethel Abbott, Philadelphia."

"Ethel Abbott" is said to be living in Philadelphia. A friend of the dead man told a reporter that "Miss Abbott" now is married, and that, following her marriage "George had been attentive to Miss Ethel Peters, of No. 21 West Fortieth street, Bayonne."

Miss Peters is twenty years old and very pretty, and announcement of her engagement to young Morris was expected at any time.

Miss Peters was interviewed by detectives. To them she said she and Morris were out on Sunday evening and that the young man was in the best of spirits. She said she and the dead man were very close friends, but that she is able to throw no light upon the tragedy.

The police last night were said to be upon the point of arresting two men seen in the neighborhood before the crime.

One of the most singular circumstances connected with the case is the fact that, although the section is populous, no one heard the report of the pistol that ended the life of the young man.

### GIRL STITCHERS

QUIT THEIR WORK IN A BEVERLY FACTORY

BEVERLY, Jan. 31.—Because of the refusal of the firm to permit visits from a collector of dues for a union, 150 girl stitchers at the Woodberry Shoe company went out on strike today. The firm claimed that on the days that the collector visited the shop there was a marked decrease in the output.

### DETECTIVE BURNS

READY TO TESTIFY AT THE LORTIMER HEARING

WASHINGTON, Jan. 31.—With Detective W. J. Burns ready to testify the Lortimer senatorial investigation today passed into its concluding stage. Burns and his men, on behalf of the inspectors which seek to unseat Senator Lortimer have gathered evidence which they claim mutually affects the veracity of a witness.

William A. Kennedy, a member of the Illinois legislature, which elected Lortimer, continued as a witness when the hearing began.

## WANTED A CHANGE

Young Man Wished to  
Learn a Trade

"Do you want to go to the reformatory at Concord?" asked John J. Plimpton of William H. Plimpton, who was arrested before a justice of the peace this morning on a complaint charging that he had been drinking. Plimpton, who is 18 years of age, did not reply to the question, but he was taken to the reformatory at Concord.

The young man's father said that he had been drinking, but that he had not been drinking for some time.

Plimpton said that he wanted to learn a trade and that he was willing to go to the reformatory at Concord for that purpose.

Justice Plimpton gave the defendant some good advice, after which he was taken to the reformatory at Concord.

## Case Again Continued

Nicholas P. Deane, charged with assault on Mary Deane, was called for trial this morning at 10 o'clock in the courtroom of the justice of the peace. It is alleged that the defendant struck the girl on the head with a brick near the new bridge, on the morning of the 24th of this month. According to the report of the police, the girl was injured and the defendant was arrested.

Deane, who is 25 years of age, was arrested on the 24th of this month. He was charged with assault on Mary Deane, who is 18 years of age. The case was continued to this morning.

Deane was arrested on the 24th of this month. He was charged with assault on Mary Deane, who is 18 years of age. The case was continued to this morning.

## Tewksbury Case

Walter H. Cooke was charged with drunkenness and disorderly conduct on the property of the Tewksbury Hotel. Cooke was arrested on the 24th of this month. He was charged with drunkenness and disorderly conduct on the property of the Tewksbury Hotel. The case was continued to this morning.

## Drunken Offenders

Adam Goley entered a plea of guilty to a complaint charging him with drunkenness. Mrs. Goley, through an interpreter, said that when her husband is intoxicated he causes a disturbance in the house. Goley promised the court that he would be better in the future and with that understanding he was given a suspension of two months in jail.

John Donovan was fined \$5 and several simple drunks were released before the opening of the session.

## CHINESE OFFICIALS

Visit American Admiral  
at Nanking

NANKING, Jan. 30.—Walter C. West, the foreign minister, and Chin Chin, the Chinese minister, in the republic, called on the American Admiral Joseph L. Murray, commander of the United States Asiatic fleet, on board the special service ship Rainbow, Wilbur T. Gray, the United States consul at Nanking, was also present at the meeting. The two republicans, who are considered friendly to the United States, were with the admiral and the consul.

No reports have been received here of serious fighting between imperialists and revolutionaries.

It is asserted in reliable quarters that information has been received that the throne has been offered to the Chinese, but that the offer is pending.

## SUITCASES STOLEN

VERMONT MAN ROBBED BY A  
CLEVER RUSE

BOSTON, Jan. 30.—Raymond H. Little, whose home is in Randolph, Vt., has been staying at the Boston Hotel for the past few days, and yesterday morning he was robbed by a clever ruse.

It was during the night that the pocket was taken. In the North station, where he was standing, a stranger stepped up to him, and asked him to lend him a suitcase.

"There is a suitcase for you at the hotel and you had better see to it," the stranger said, and he took the suitcase and ran.

Little, who is 35 years of age, and in the meantime, while the man with the suitcase was running, he took the suitcase and ran.

It was not until he had reached the seven minutes' limit, that he discovered that the suitcase was empty. He had been robbed of his suitcase and the contents.

An hour later Detective O'Brien called the man who had been robbed, and asked him to describe the man who had taken the suitcase.

In the city police office, under the name of Edward H. Little, the man who was robbed was described. He was a man of about 35 years of age, with dark hair, and a mustache.

## EXPRESS RATES

INTER-STATE COMMERCE COM.  
MISSION BEGINS INVESTIGATION

WASHINGTON, Jan. 30.—The interstate commerce commission has begun its investigation of the rates of the New York Central and Hudson River railroad company. The commission has received a report from the New York Central and Hudson River railroad company, which states that the rates of the company are reasonable.

# RECRUITING STATION

## Sergeant Carney is Doing Fine Work in This City

The United States army is in need of many men according to Sergt. Robert J. Carney, who is in charge of the local recruiting station. A reporter of The Sun called on Sergt. Carney at his office in this city, 129 Middlesex street, this morning. He said that the local station is doing its share to increase the forces. During this month 12 men applied for enlistment and were examined. Of the number 8 took out papers for the field artillery. These men after complying with the local rules are sent to report to the main recruiting depot at Fort Slocum. At the local station they are accepted for enlistment only after passing a strict examination. About one in five is accepted.

Sergt. Carney, who is in charge of the local station, is a soldier of considerable experience. He joined the army on Sept. 1, 1897, and has been continuously in service since. In his office he has several diplomas and many articles pertaining to his experience while in the service. One that he prizes highly is a diploma of his honorable discharge as a quartermaster-sergeant at Fort Porter, N. Y., on Nov. 1, 1906. It reads that the character of the officer is "excellent, and an efficient non-commissioned officer." This is signed by Andrew C. Wright, first lieutenant of 12th infantry. On the reverse of this diploma is printed the record of Sergt. Carney. While reading the latter the information of the pay received by the officer at the expiration of his term of office of three years was obtained. "Ten discharged he received \$377.88. This was clear profit. The officer said that during the term of three years the soldier is supplied \$112 to buy clothing. If the man is of the saving kind he may place a good portion of this in the army bank. He is allowed to deposit any amount over \$5 and will draw 4 per cent interest on his money. When his term expires he is paid off and also draws whatever he has in the bank.

Sergt. Carney is also a veteran of the Spanish-American war. He served in the regular army with Lieut. Bernard McArdle of this city. They were together for three years as members of the 15th infantry. "This was during the years 1900-1902. The terms of the two men expired at Fort Logan, Denver, Colo. Sergt. Carney said that Lieut. McArdle is a frequent visitor at his office and that they are great friends. "Last summer while the O. M. people of every land in the world, he

had many photographs taken in different lands. Some of the most interesting and unique are those showing the natives of the Philippines. He is a very courteous gentleman and stopped his work to give the writer information.

In discussing the army situation he said: "The United States army at the present time is maintained at a very high standard. The rules are getting stricter each year and the army embraces a very representative gamut of men. I think at the present time that it is mentally, morally and physically superior to any army in the world. During my experience I have come in contact with many different ones and our own in my opinion could not be improved upon."

These recruiting offices are established not to annoy anybody by soliciting them to join the army, but are here to accept enlistments and give information concerning the army work. People who are of the opinion that any man who applies will be accepted have a very wrong impression. We want good men and those are all we will examine.

Here are some of the rules governing the candidates for enlistment which will sustain Sergt. Carney in his assertion.

Applicants for first enlistment must be between the ages of 18 and 25 years, of good character and temperate habits, able-bodied, free from disease, and must be able to speak, read and write the English language.

No person under 18 years of age will be enlisted, recruited, or accepted with a view to enlistment, or minors between the ages of 15 and 21 years must not be enlisted, or accepted with a view to enlistment, without the written consent of the father, only surviving parent, or legally appointed guardian, to the minor's enlistment.

Original enlistments will be confined to persons who are citizens of the United States, or of Porto Rico, or who have made legal declaration of their intention to become citizens of the United States. Applicants for original enlistment who claim to have been naturalized or to have declared their intention to become citizens of the United States will not be accepted for enlistment nor enlisted unless they exhibit to the recruiting officer documentary evidence, under the seal of a court of competent jurisdiction, of their naturalization or their declaration of intention to become citizens.

The notation "certificate of naturalization exhibited" or "copy of declaration of intention exhibited" with date, serial number, and title of court from which issued, will be made by the recruiting officer, under the head of remarks, on the report of physical examination, Form No. 137, A. G. O., in the case of each such applicant who is accepted.

Married men will be enlisted only upon the approval of a regimental commander, or other proper commanding officer if other than a regimental organization.

Applicants will be required to satisfy the recruiting officer regarding age and character, and should be prepared to furnish the necessary evidence.

For infantry, coast artillery, and engineers the height must be not less than five feet four inches, and weight not more than one hundred and ninety (190) pounds.

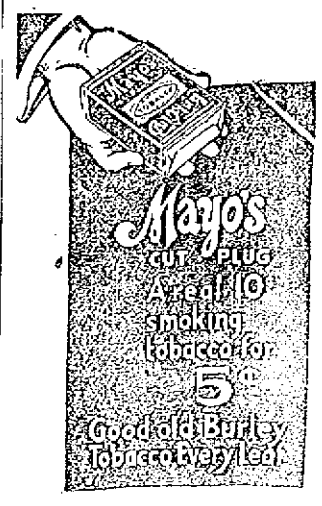

For cavalry the height must be not less than five feet four inches and not more than five feet ten inches, and weight not more than one hundred and eighty (180) pounds. For the mountain batteries the height must be not less than five feet eight inches.

A variation not exceeding a fraction of an inch above the maximum height stated for cavalry and field artillery is permissible if the applicant is in good health, and is in other respects desirable as a recruit.

The minimum weight for all arms of the service is one hundred and twenty-eight (128) pounds, subject to variations below that standard as explained herein, but in no case will an applicant whose weight falls below one hundred and twenty (120) pounds be accepted without special authority from the adjutant general of the army.

The suit, filed by Mrs. Amelia A. Dicks in behalf of her husband, a bill which she filed in the court yesterday, a London lawyer, 11 years old, became a legal fact for a fortune.

White Crepe de Chine. Regular price \$1.00. Sale price.....69c yard  
White Crepe de Chine. Regular price \$1.25. Sale price.....89c yard

## CITY OF LISBON

### Has Been Placed Under Martial Law

LISBON, Jan. 31.—There are 5000 troops under arms in Lisbon, where the strikers declare they have 20,000 bombs with which they will be able to annihilate the soldiers.

Several bombs have already been thrown with terrible effect.

The government is desirous of preserving a moderate and prudent attitude and to concede part of the strikers' demands, which include the release of all the strikers arrested during the course of disturbances in the Bairro district and the dismissal of the governor of Evora.

But the situation last night was such that it was deemed expedient to proclaim martial law in the capital. A large number of agitators have already been arrested. The troops are under orders to make raids on all suspected places, with the result that wholesale

arrests have been made and innumerable persons seized. The prisoners are being placed aboard warships in the harbor.

Toward evening strikers assembled in various quarters and bombs were thrown at mounted republican guards in Bairro square and in the suburb of Alenteiro troops were obliged to charge the mobs with drawn sabres.

## REV. A. C. FERRIN

CHOSEN PRESIDENT OF LAW AND ORDER LEAGUE

At a recent meeting of the Law and Order League the following officers were chosen:

President, Rev. A. C. Ferrin; first vice president, Rev. G. F. Kennegott; second vice president, Rev. W. H. Hook; third vice president, W. T. S. Barlett; secretary, Rev. J. T. Carleton; treasurer, Mrs. Edw. Clark; member-

ship committee, T. W. Johnson. (Audible firearms seized. The prisoners are being placed aboard warships in the harbor.)

## Personally Conducted Excursions to California Resumed January 30th

If you are going to California, save money by using one of our comfortable, through tourist sleeping cars.

Join one of our personally Conducted Excursion Parties in charge of a Special Conductor who goes through with each party. The above picture is taken from a photograph of one of these men. He is employed by the Burlington Route for his special fitness. He has made the trip a hundred times and knows all about it. He is paid to look after your comfort, attend to all little details of the trip for you, and explain all the points of interest on the way—a competent, courteous employe, glad to be of service.

By joining one of these parties you can be extra comfortable and the trip will be a great pleasure, instead of being tiresome and vexatious.

If you will kindly call at the office, or write—a postal will do, I would like to send you without charge, maps and pictures, and printed matter telling all about these parties, and I shall be very glad indeed to help you in making your plans.

Alex Stocks, New England Pass. Agent

When you feel discouraged, confused, nervous, tired, worried or despondent it is a sure sign you need MOTT'S NERVE-PILLS. They renew the normal vigor and make life worth living. Be sure and ask for Mott's Nerve-Pills Price \$1.00 by druggists.

For sale by Kalls & Burkhaw

were enjoyed. First prize was won in the donkey game by May Axon, while Mr. Partington carried off the lucky prize.

The party broke up at a late hour, all wishing Miss Phillips many very happy birthday anniversaries.

Mrs. Duckworth was assisted in serving by Mrs. Axon and Mrs. Leach.

EDUCATIONAL CLUB  
The Educational Club held a meeting yesterday at which two very interesting papers were presented. One was on "The Life of William McKinley" and the other on "Hawaii," the presentation of which the United States acquired during President McKinley's administration.

The club study of North America proves most interesting, embracing as it does the geography, architecture, distinguished men and women and general history of the country.

TO PILE VICTIMS  
TREAT THE INWARD CAUSE IF YOU WANT A CURE

Is piles a skin disease? No, it is a stagnation of blood circulation—a swelling of blood vessels. Treat the inward cause from applications outside. The treatment should attack the cause.

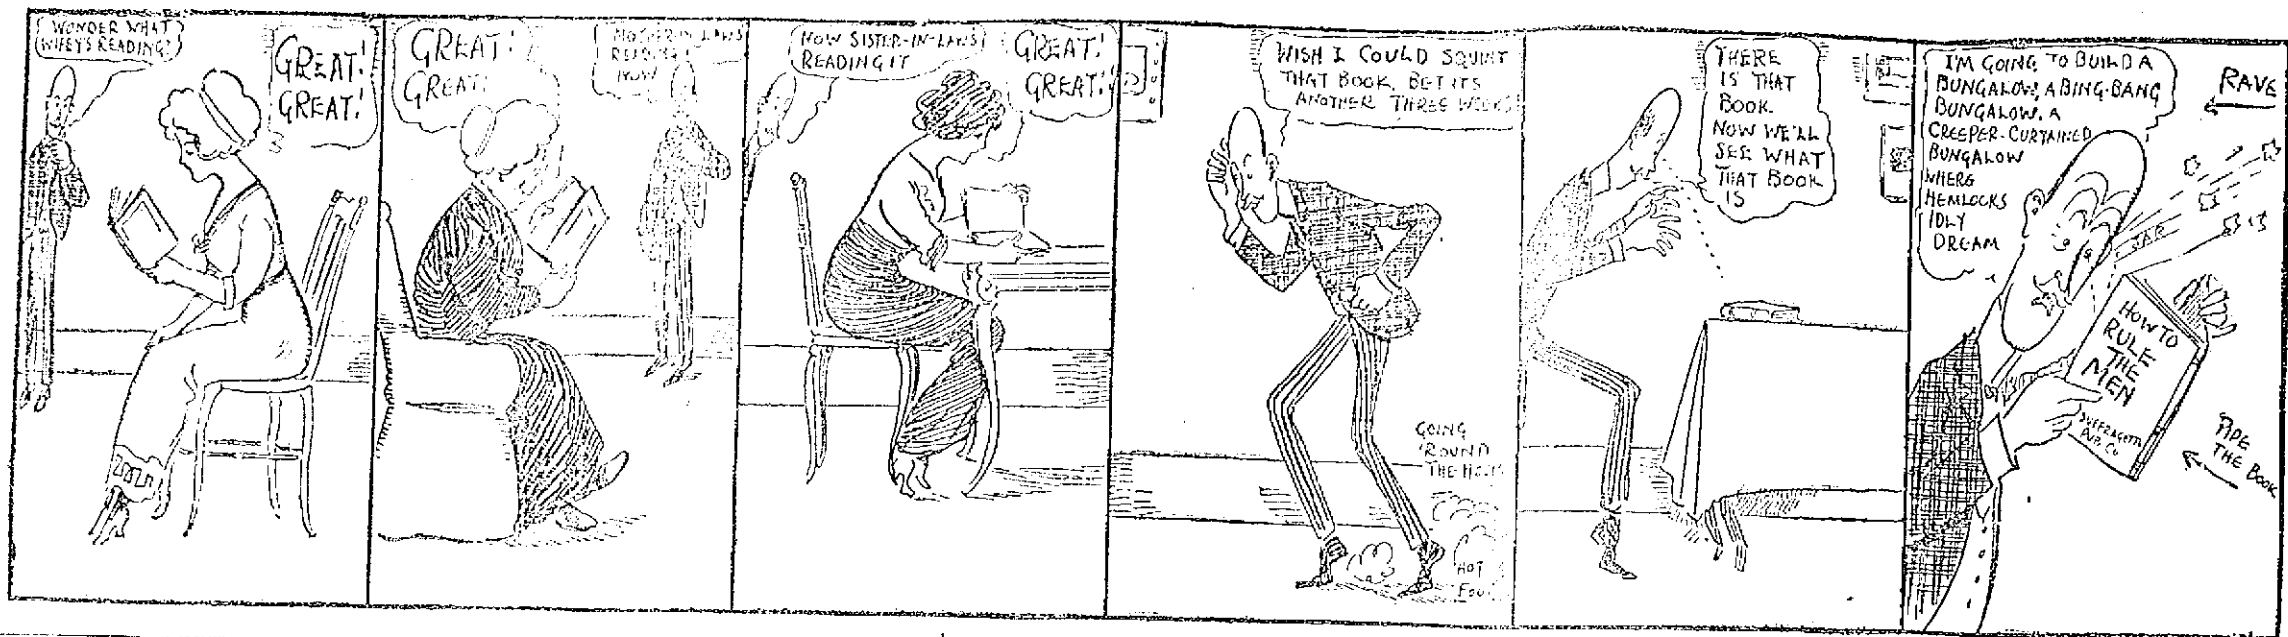

Dr. Leachard's HEM-ROID (sugar-coated tablets) is taken inwardly; it restores circulation, rids you of piles for good.  
Sold by Carter & Shorburne Co., Lowell, Mass., and all druggists. \$1 for 21 days' supply, satisfaction guaranteed. Dr. Leachard Co., Station 15, Buffalo, N. Y.

# FIGURE SKATING REGAINING FAVOR ENGLAND HAS MANY GOOD REFEREES

TANDEM STYLE VERY POPULAR ABROAD.

It is proposed to introduce a system known as the international style, which has been adopted by the International Skating Union, and is now being taught in the United States. The British Isles, however, have their own style, and the two are not yet reconciled. The British style is more graceful, and the American style is more powerful. The British style is more graceful, and the American style is more powerful. The British style is more graceful, and the American style is more powerful.

## Figure Skating.

Many people consider all skaters as one class of athletes. They know, too, that the most difficult part of the sport is the figure skater's work. The figure skater must be able to perform a variety of figures, and the British style is more graceful, and the American style is more powerful. The British style is more graceful, and the American style is more powerful. The British style is more graceful, and the American style is more powerful.

The figure skater is more of what might be termed an artist than the speed skater. He is credited in competitions for the carriage and balance of his body, the facility with which he can change his position, the accuracy of his strokes, etc. His racing brother, on the contrary, wins by crossing the finish line first, irrespective of the technical perfection of his stroke or the degree of development toward the mastery of what constitutes good form. Of course the carefully trained, scientific race skaters in strength and wind by following approved and hence improved methods, but his glory and gold medals are the rewards of strength, speed and endurance more than skill.

The beginner in figure skating finds the approach to this fascinating pastime hedged by difficulties. Unless he is determined to succeed he will never take above mediocrity, which condition every right minded person should abhor in any branch of endeavor. First, the beginner must learn what to do, next how to do it and then how to do it perfectly. Lastly he must practice faithfully, so that his muscles will receive necessary training, that his balance and poise will be improved and his knowledge of figures made comprehensive. One figure leads to another, just as arithmetic paves the way for algebra and geometry in school. Simple strokes graduate into the combinations and these in turn merge into the

TWO VIEWS OF THE WHIRL POPULAR IN AMERICA.

complex. Only he that has a trustworthy knowledge of the skating alphabet will try to force himself into the higher circles of competition and accomplishment. Therefore, take time by the forelock and build your reputation on a firm foundation.

down for beginners in many lines of athletics, and to some extent it is a good one for ambitious figure skaters. Single out some expert and watch him so closely that he may suspect you of being a detective on his track, but do not sacrifice your own individuality in his style.

## ENGLAND HAS MANY GOOD REFEREES

ENGLAND may not produce as many great fighters in the ring, but there is one thing about Great Britain that doesn't prevail in any other country where boxing is generally practiced. They have mighty few knock over referees' decisions on the other side.

And even American fighters who go to England and meet the best of them on the other side have few complaints to make of their treatment by British referees. But that isn't the point I am trying to get at just now. What I would draw out is the fact that England is filled with capable referees and that is something that cannot be said of the boxing game here in America. And it is for us to boast that we produce the greatest fighting men of any nation.

How is one to account for the fact, then, that there are few capable referees of boxing contests in this country? It's hard to do, but the fact is just as glaring as ever. Over in France they are having a lot of trouble. Seldom a big show passes that there isn't a loud roar about some decision. But, of course, that is to be expected, for boxing is a new game over there and they haven't had time to educate the referees up to the exigencies of the office.

They had a corking good international battle decided in Paris recently. It brought together Georges Carpentier, the French champion, and Harry Lewis of Philadelphia. When it came to picking a referee it was found there was none capable in France. So the men compromised and had three, a referee and two judges, and one of these was a Britisher appointed by Sporting Life of London.

We never had very many capable

men in this country, but they seem to be getting fewer and fewer as the years roll by. Death took the daddy of them all in George Siler of Chicago, and more recently suddenly removed one of the best on the Pacific coast, Eddie Smith of Oakland, Cal. They still have some good ones in the west. Charley Epton of Los Angeles is as good a man as can be found anywhere, and Jack Welsh occupied a similar position in San Francisco. Whatever may be said about them they are a thoroughly capable pair. Harry Foley is another good man in France, and Eddie Hansen also may be mentioned among the younger generation.

In the east that sterling old veteran, Charley White, seems to be the best, although he, too, comes in for much scolding at times. But that is the portion of many a thoroughly capable man.

Eddie Sonty is easily the best referee around Chicago for miles and is followed closely by Charley Lavine, who hasn't had the experience necessary as yet.

Billy Haack, in Memphis, despite frequent kicks on his verdicts, is as good a young referee as there is in the country, and nothing can be said about his absolute honesty. The same is true of Tommy Walsh, who has acted in many a tough battle in New Orleans and the south. Harry Stout also may be said to be a good man.

Herman Kleinbroth is showing a superior grade of work around St. Joseph, Mo., and Kansas City, and Jimmy Bronson is doing well in handling battles in Springfield and Joplin, Mo. There are others, but the list is skimpy and meager. We have fighters galore, but few men capable of handling them. Strange, but all too true.

CURLING, that great Scottish game, seems to have gained a firm hold in the United States and Canada within the last few years. This winter more matches than ever have been held. The visit of thirty-one curlers from Scotland to Canada recently added renewed interest to the game in the Dominion. Picture shows curler about to heave the stone.

## "WINLESS WONDER" DEFEATED IN OVER 200 MATCHES

"BACK in 1899," says Paddy Carroll, the old time fighter and fight promoter, "I was running a boxing club, and I always do when they'll let me—and was wondering where I could dig up a good, square semiprofessional bout for my next show, when a stocky, good looking young man, with a tin ear as the only hallmark of the fighter, came into my office and handed me his card. 'George Strong, 'Puzzlist,' was all it read. Sizing him up I could see he was a featherweight—a compact, well built featherweight—and apparently good enough to put up a swell fight with any one in his division.

"Looking for a match, are you, son?" "Yes, Mr. Carroll," he replied. "Any one from 122 to 126 pounds, and I'll even take 'em on at 130 to get a match."

"Ever light anybody that amounted to anything?" I asked. "He smiled cheerfully. "Well, rather," he responded. "Fact is, Mr. Carroll, I've fought 'em all. I've fought George Dixon three times, Oscar Gardner four times, Johnny Van Fleet, Ike Weir, Frankie McHugh, Australian Billy Murphy, English Murphy—all of them, Mr. Carroll."

"Naturally I was impressed. 'Got the documents to prove it?' I demanded. "Yes, sir, I have," he answered. "Here's my record," and he yanked out a strip of printed paper about two feet long. It contained a list of fights, mostly with the leaders of the featherweight division, and was in one way the oddest, most unusual record that I ever saw. Why so?

Ten Years of Reverses. "Opposite every name, without exception, was either an 'L' or a 'K.' By that boy had met 200 fighters, more or less, including all the stars, and every one of them, every featherweight in North America had beaten him. He didn't have a solitary 'W' on his record. From the time he first entered

the ring—ten years before—to the current day and date, Strong had not won a solitary battle.

"Well, son," said I, "you seem to have fought them all, but they all seem to have defeated you."

"Yes, Mr. Carroll," said he. "They all beat me, but I gave them all good fights. I never won a fight in my life. Mr. Carroll, but some day I'll beat somebody."

The Winless Wonder. "I laughed long and heartily and then looked Strong, whom I promptly christened the Winless Wonder, for the semiprofessional of the coming show. His opponent was a new performer who had been going well and beating a lot of second raters and seemed about ripe for faster doings, and by advertising Strong's many battles with Dixon, Gardner and the others I worked up a good deal of interest in the match.

"Well, the battle started as per schedule, and Young Kelly, the local light, didn't seem to get his stride. The Winless Wonder, with experience and pluck to help him, beat the boy all around the ring. For three rounds he

slammed and walloped Kelly, and as the going ended the third session it looked as if the youngster couldn't go much farther.

Victory In Sight. "Son," said I as I passed Strong's corner, "it seems you are going to break your record at last and win a fight."

"I hope so, Mr. Carroll," Strong replied. "I hope so, but I can't believe my luck will let me."

"They rushed together again and again. Strong wheeled the junior round the ring. At last Kelly received a glorious belt on the side of the head and went to the floor. He got up at the eighth call, and Strong toppled him again. He got up at nine; Strong rushed over Kelly's foot and dived headlong through the ropes. As he fell his head struck the press table, and he was stunned. The poor fellow couldn't go on. The referee had to give Kelly the decision, and the incomparable record of the Winless Wonder remained unbroken."

GRIFFITH AND CALLAHAN WILL FIGHT DUEL ON BALL FIELD

A PITCHING duel between the two war days is a possible feature of some summer afternoon this season at Co. Riley's Chicago ball park. James J. Callahan, manager of the White Sox, received a formal challenge recently for such a combat, Clark Griffith, now manager of the Washington team, being the sender. Both these leaders of modern baseball teams were twirlers in the days gone by, both being on the Chicago National League club and both going over to Conkley's team when the American League expanded.

The pitching days of each have long since passed away, but the friendly rivalry probably will continue when they are old gray bearded men, and

in his letter says: "You are heralded as the great comeback man of baseball. Let's see if you have any nerve. I don't think you'd dare pitch a game next summer against me. I'll let you pull it off on your own grounds if you are game enough to accept."

Callahan's answer to his old mate reads like this: "You're a cross old man. The older you get the crosser you are. You haven't been back in the American League ten minutes before you wanted everything. I'm going to try to live a square and upright life and I don't think it would be fair to an old man to accept a challenge to go out and pitch a game against him. Why, you were an old man on the Chicago Na-

tional when I first joined the club."

## Soccer Football Gaining In Favor

ONE sport that has advanced more than any other in this country during the last year is association football, or soccer, as the game is more generally designated. The latter is a slang term applied by English religious, who use the word rugby to denote the game of Rugby, from which the American style of football was developed. For the last ten years efforts have been made by followers of the game to plant it firmly in this country, but it was only when more or less dissatisfaction was expressed with the American game that these efforts began to bear fruit.

Five or six years ago when football was barred at Wisconsin the director of athletics procured some association balls, but the students could not be induced to do more than kick them around in an aimless manner. Two or three years later the western conference took up soccer. Chicago and Illinois took up soccer, and now nearly every college in the west has its soccer team.

The game took more readily in the eastern colleges, getting its start mainly from English or colonial students who played their own games and enjoyed it whether it suited the populace or not. Columbia was one of the first to put a team in the field, while Cornell was quickly in line with a championship aggregation.

Captain Dalton of the Naval academy team introduced the game at Annapolis, and there are now about forty midshipmen playing it with the idea of arranging games next season.

Soccer always has been strongly entrenched in factory towns where the English residents played the game and attracted big crowds to the matches. Interest was increased by the tour of the crack Corinthian team of England last year, and its further spread is assured now that the National Collegiate association has appointed a committee to supervise the sport.

The game is a clean one and faster than either American football or Rugby. It can be played at easily, but requires considerable practice to be played properly. Time was when rugby was of far more importance in England than soccer, but gradually the former game grew until it is now the reigning winter game abroad, and the final cup tie has attracted as many as 100,000 spectators.

How long it will be before soccer dominates winter sport here is a question, but its rapid strides in the last few years, its speed and the possibility of a long season are all factors in its favor.

## FLYNN'S CHANCES WITH JOHNSON

JUST how much chance Jim Flynn will have in the proposed match with Jack Johnson is perhaps best shown when his former fight with the colored champion is recalled. Flynn did not land a blow on Johnson in that battle, which took place in 1905. Johnson just bludgeoned him, knocking at his efforts to reach him. Flynn finally lost his temper and called Johnson a name, whereupon the Irish left Johnson's face, and he got down to business. Result, a knockout, and that when he was trying in only one round.

## THREE SMALLEST PITCHERS.

Jack Warhop of the New York Americans, Knapp of Cleveland and Clete of Boston are the smallest pitchers in the big leagues, although Earl Hamilton of the Browns is no plant.

## CHOYNSKI TELLS HOW HE KNOCKED OUT JOHNSON

IN three troublous times for fighters, when the heavy paw of the law has cast a gloomy shadow over the entire game, small chips of cheer become bright stars of hope and the possibility that Champion Jack Johnson may fight again for the heavyweight title of the world, has aroused light fans from their verbal apathy. Whether Johnson fights in this country, Australia or China and whom he meets is not yet the question at present we are merely hoping for a match with the intensity of a shipwrecked sailor on a desert shore who wants to start a fire.

Johnson's history in the ring covers many adventures, but perhaps there is no battle in his record more worthy of description, with all its attendant incidents, including a thirty days' jail sentence, than his first bout with a really good fighter—his battle with Joe Choynski at Galveston, Tex. If this is recalled, certainly we must admit that no man is better fitted to tell the tale than Choynski, the winner, and the following story is in Joe's own words:

"It was in February, 1901, that I received a telegram to come to Galveston and act as sparring instructor for the athletic club and give an exhibition with Jack Johnson for ten rounds. Johnson had defeated several men and was ready to fight in his own words that they bring J. J. Corbett down for him to meet.

"I had appeared in Galveston, having defeated 'Old Tom' champion, one Herman, in three rounds, but they told me this black chap was a fighter—big, strong and clever, and weighing 192

pounds. My weight was 169 pounds. 'I arrived in town a week before the contest and took a few turns over the beautiful beach to keep in trim—the city was still desolate, due to the recent tidal wave and storm, and the hall in which we appeared looked like a tomb. However, a big house greeted our appearance with no looking of trouble, no casting of shadows.

"I had never seen my opponent in action, but he certainly looked formidable. Time was called for the first round. I started toward him and he backed away and kept backing for the entire round. Second round, the same thing. As I went to my corner at the expiration of the round I felt that I should have to do something—take a

punch to give one, as he appeared to be waiting either for me to tire or merely to stay ten rounds.

"When time was called I walked up and left my guard open purposely. He fell for it and sent in his left, but I countered with a left hook on his eye and he went down, was counted out, and the referee declared me the winner.

"After the fight all hands were arrested by the Texas rangers. They threw Johnson and myself in the booby hatch and tossed the key in the Rio Grande. It was some time before I managed to make my getaway, and, believe me, they'll never get another chance to arrest Joe Choynski in Texas."

## Oiling Bodies Will Not Help Pugilists Like Wrestlers

IT is an old, very old, trick of wrestlers to oil or grease their bodies before going into a contest, and some wrestlers, especially the Japanese, still wear oil or grease into their skin in training for a match on the mat. The effect of oil or grease worked into the skin thoroughly is to make it difficult for a man to get a good hold on a wrestler or to maintain the grip after it is taken. But the effect is of little use if both the men are greased or oiled, for it once more puts them on the same level as they were when they started or before either was oiled.

But of what particular benefit oil or grease on the body of a boxer or fighter

under Marquis of Queensberry rules is not very apparent. It might be imagined that if a fighter's body was oiled his opponent could not get a good grip on him in the clinches, but no boxer who knows his business wants to do any clinching. It might also be imagined that a blow would glance from the jaw or body of the greased fighter, but there is little in that argument, for a well aimed punch would hurt almost as much whether or not the man was greased who received it. Only fear of being hurt would induce a fighter to grease any part of his body, and if his opponent could hit hard the greasing would not save him much.

## When Dan Brouthers Needed a Saw Log

THERE was a time when it was next to impossible for a major league team to win a close game in some places to the south, but fans have been taught now that it isn't the correct idea of sportsmanship to call out visiting batters on strikes when the ball is not within fences of the plate. Detroit some years ago was playing with a team which is now out of existence. The man who umpired that game is living, but he never laughs when he talks about it.

Three men were on bases. Dan Brouthers came to bat. Dan, it will be recalled, had a habit of hitting the ball over the fence, not now and then, but often.

The pitcher of the opposing team threw four balls to Brouthers. One of them he could have batted. The other three, never, but he was called out just the same. Dan took one look at the umpire.

"There are two ways that I should treat you," said the big first baseman. "One is to pick you up and jam you through a crack over there in the fence, and the other is take off my shoe and spank you before this large and important gathering"—there were about 300 present—"as I would a kid who had been stealing apples."

"Why didn't you hit the ball?" said the umpire feebly. "Hit it!" roared Brouthers. "What do you think I am playing with—a saw log?"

The umpire did not complete the game.

## WINLESS WONDER DEFEATED IN OVER 200 MATCHES

"BACK in 1899," says Paddy Carroll, the old time fighter and fight promoter, "I was running a boxing club, and I always do when they'll let me—and was wondering where I could dig up a good, square semiprofessional bout for my next show, when a stocky, good looking young man, with a tin ear as the only hallmark of the fighter, came into my office and handed me his card. 'George Strong, 'Puzzlist,' was all it read. Sizing him up I could see he was a featherweight—a compact, well built featherweight—and apparently good enough to put up a swell fight with any one in his division.

"Looking for a match, are you, son?" "Yes, Mr. Carroll," he replied. "Any one from 122 to 126 pounds, and I'll even take 'em on at 130 to get a match."

"Ever light anybody that amounted to anything?" I asked. "He smiled cheerfully. "Well, rather," he responded. "Fact is, Mr. Carroll, I've fought 'em all. I've fought George Dixon three times, Oscar Gardner four times, Johnny Van Fleet, Ike Weir, Frankie McHugh, Australian Billy Murphy, English Murphy—all of them, Mr. Carroll."

"Naturally I was impressed. 'Got the documents to prove it?' I demanded. "Yes, sir, I have," he answered. "Here's my record," and he yanked out a strip of printed paper about two feet long. It contained a list of fights, mostly with the leaders of the featherweight division, and was in one way the oddest, most unusual record that I ever saw. Why so?

Ten Years of Reverses. "Opposite every name, without exception, was either an 'L' or a 'K.' By that boy had met 200 fighters, more or less, including all the stars, and every one of them, every featherweight in North America had beaten him. He didn't have a solitary 'W' on his record. From the time he first entered
